

## **SHB 1422 DRAFT REPORT OUTLINE**

### **Part 1: Describe what the legislature asked of us.**

(2) The department of natural resources must provide a report to the governor and the appropriate committees of the legislature:

- (a) By December 1, 2011, regarding all of its activities pertaining to forest biomass to aviation fuel, including expenditures and revenue sources;
- (b) By December 1, 2011, and December 1, 2012, with a summary of research activities, scientific reports, and pilot projects pertaining to forest biomass to aviation fuel by state research institutions, including the status of ongoing activities and summaries of the findings with their implications for management of forest trust lands;
- (c) By December 1, 2011, and December 1, 2012, on the progress of the forest practices board's forest biomass policy work group's consideration of the science, policy, available technologies, and best management practices related to forest biomass harvest, including final recommendations to the forest practices board.

### **Part 2. Summary of all activities pertaining to biomass to aviation fuel.**

To be written by DNR Policy Staff.

### **Part 3. Summary of research activities, scientific report, and pilot projects pertaining to forest biomass to aviation fuel by state research institutions.**

To be written by DNR Policy Staff.

### **Part 4. Progress of the forest practices board's forest biomass policy work group's consideration of the science, policy, available technologies, and BMP's related to forest biomass harvest, including final recommendations to the forest practices board.**

- A. Group membership. Provide a list of all members and their affiliations.
- B. Group charter. Describe the charter in a paragraph. Include the charter itself as an appendix.
- C. Timeline of work. Describe that a timeline was developed. Include the timeline itself as an appendix.
- D. Biomass Tours. Provide an overview of the biomass collection operations the group has visited to date. Include pictures.
- E. Process for evaluating specific topics. Provide a brief description of how meeting are set up (FP WAC overview/BMP presentations), resources collected (science), discussions had.
- F. Soil Productivity and Health. Provide an overview of the meeting and any outcomes that came from it.
- G. Roads. Provide an overview of the meeting and any outcomes that came from it.
- H. Silviculture. Provide an overview of the meeting and any outcomes that came from it.
- I. Disturbance (pest, disease, fire, conversion). Provide an overview of the meeting and any outcomes that came from it.
- J. Conclusion. Indicate that the process is still underway and no recommendations have been made to the board.
